If the claim is rejected as a non-compliant, Availity will notify you or your agent via a 997 and/or the Submissions Report available in the Availity web portal. A claim could also be rejected for a variety of reasons once it gets into the claim adjudication system. If that happens, it will appear on the eRemittance (835).
What type of rejections will I find on my reports?	The submissions report will show any rejections that occurred during the HIPAA and/or Minnesota Validation process as well as show all claims accepted.
Will Progressive continue to receive paper claims?	The spirit and intent of the legislation is to encourage electronic commerce in health care billing and to reduce administrative costs. However, Progressive will continue to receive paper claims as providers adapt to the eBilling processes.
